Reduces rear tyre slippage

Better control in any riding condition

TRACTION CONTROL SYSTEM

Controls the engine power and reduces the rear tyre slippage by electronic control when the system detects RPM differences between front and rear tyre.

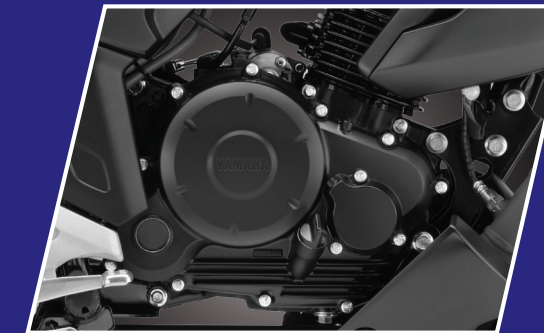

*Available only on select variants.

The All New Yamaha FZ-S FI V4.0 DLX

Over 1.5 million hearts rev faster with the FZ Series. This new age macho bike has ruled Indian hearts and roads for over 15 years. Today, the original streetfighter is still streets ahead. The muscular design. The exceptional handling. The finest Yamaha technology - including a torquey Fuel Injection 149 cc engine with Bluetooth-enabled "Yamaha Motorcycle Connect", ABS, and a category-first Traction Control System for improved safety. It all adds up to create the true Lord of the Streets!
